

I was appointed as weed harvest chairman at the BLPRD district board meeting February 8, 2020 by Joe Dion, district board chairman. I have volunteered for three seasons and have chosen to resign and move on to other interests. The district board was verbally informed on June 25, 2022 that I would officially resign on October 8, 2022, at the annual meeting. I am writing this note to district members to make them aware that this position will be open and needs to be filled.

Also as of October 8th, there will be several district board vacancies. If you are interested in any of these positions and if you are willing to put the time and effort into it and hope to improve Buffalo Lake, I would suggest you contact a current board member and let them know you are interested in filling a position.

A newsletter is sent out prior to the annual meeting. If interested, candidates could have their name and intentions listed. At last year's annual meeting, there were 27 voting district members that showed up out of approximately 700 eligible voters. If people expect improvement on Buffalo Lake, there needs to be more interest and participation.

Thank you,
Gary Kershaw
