Department of Natural Resources as to the )  
Maximum and Minimum Levels to be Established )  
for Buffalo Lake, Towns of Montello, Packwaukee )  
and Moundsville, Marquette County, Wisconsin )

3-WR-1823

AMENDED FINDINGS OF FACT

An order was issued on November 17, 1976, regarding the above-entitled matter.

Findings of Fact No. 2 is amended and should read as follows:

2. The dam consists of a 188-foot spillway and a lock chamber. The crest of the spillway is at elevation 768.45, mean sea level datum. Twelve-inch flashboards have been used on top of the spillway to assist in establishing and holding levels. The tops of the sluice gates in the lock chamber are at the same level as the spillway with 12-inch flashboards.

All other provisions in the original order remain in effect.
