Topics of discussion

A. New Storage Building Update

New storage/office building will be delivered the week of July 4th.

1. Fill for Leveling

Bob has ordered gravel for fill to level the building at a cost of \$275.00 and has found a volunteer to level it with a skid steer.

2. Electrical Wiring

Simple electrical wiring will be needed on the buildings. The lake district will need a permit from Marquette County to proceed. An employee is an electrician and will complete the wiring.

B. Water Supply

1. Installing a Point Well

Bob is acquiring a bid on a point well.

C. ARPA Funds Progress

BLPRD has applied for ARPA funding for one new cutter and two new conveyors.

D. Update on Harvesting Weeds

The second cut will begin the week of July 10th on both the East and West portions of the lake.

E. Old Business

Discussion on priorities of equipment replacement. (1) #4 cutter with leaking barge. Tanks have been repaired and welded every year. There is concern for safety of sinking. (2) Two conveyors to be replaced that are 34 years old.

These items should be addressed when establishing next year's budget if ARPA funding is not received.

F. New Business

Al Rosenthal brought up purchasing fuel from county as it is cheaper. Bob will check next week to see if the district can sign up and save on fuel costs.
